

TOPMATIC

The table- top slicer

This is the most compact and safe bread slicer on the market. This fully automatic slicer relies on a robust construction and a very modern design to allow you to slice up to two loaves at a time.

With its silent operation and safety features, it can even be used directly by your customers.

As the cover locks, the loaves are sliced automatically and exit through the upper opening, right next to the bagging spade.

Manual handling is kept to a minimum with the Topmatic, thanks to its superior ergonomic design. The loaves are loaded once the front-loading cover is open.
