

- **Versatile**
- **Fast**
Varia pro: Adjustable speed from 120 to 240 slices / min
Varia self: 180 slices / min
- **Easy:** Intuitive touch screen
- **Maximum safety**
- **Exemplary hygiene**

Best-in-class slicing performances for a wide range of bread

Smooth and quiet for all breads

- New engine generation designed for maximum precision on a wide range of breads, without lubrication
- Soft start and stop function

Teflon coated circular blade

- Developed to cut through a large variety of breads; from soft to dense, with a hard crust, and even sticky breads

Planetary blade drive

- Fluid blade movement, avoids back-and-forth shakes
- Robust solution for long-term mechanical reliability

VARIA PRO

Adjustable speed up to 240 slices / minute

- In order to reach the fastest possible speed for each bread type

VARIA SELF

Adjustable (to be performed by technician) speed up to 180 slices / minute

- In order to use a speed that allows users to cut the entire product line without any worry.

State-of-the-art ergonomics

Dual PRO & Self touch screen controls

PRO

- Clear and simple interface, for an immediate and intuitive use

SELF Touch screen interface and consumers instructions

- Step by step instructional graphics

Automatic claw

- Just place the bread and the machine does the rest while you continue to serve your customers

Manual claw (option)

- For all kinds of breads, including sharp ends
- Allows to minimize last slice width

Lighting guidance and ambiance

- Lights insertion zone then exit zone

Multi-positions adjustable bagging spade

- Rotating spade, above cutting chamber, to optimize ergonomics and hygiene
- Two standard (left and right) bagging spade positions
- Or non-rotating front position (option)

Upper cover

- Prevents objects placed on the machine (e.g. bags) to be pushed inadvertently behind the machine when opening the front cover
- Rotates for easy cleaning

Easy to access power switch

- Accessible from the front of the machine, but not visible; avoids operations by a non-authorized person

Safe and clean environment

Maximum safety

- Highest safety standards, for machine use by consumers and staff
- The blade cannot run when the machine is not 100% locked

Smooth and cleanable surfaces

- Internal architecture designed to channel bread crumbs to an easily accessible crumb tray
- Flat surfaces (without recess around)

Anti-pinch design

- Users cannot inadvertently pinch their fingers in the front cover sliders

Accessories to enhance staff and consumer experience

- 10 cm Front bagging stand

- Bag holder
