

## Bread slicers for professionals

- ✓ Small footprint
- ✓ Can be used on a counter-top or on a base
- ✓ Automatic slicing cycle, simple to use and optimizes time management
- ✓ Ergonomic front loading design
- ✓ Intelligent Slicing Concept
- ✓ 5 years parts / 1 year labor warranty
- ✓ Up to 17" loaf

SPECIFICATIONS

Max. loaf dimensions in in (L x W x H)	17.3" x 11.8" x 7"
Rear safety cover	•
Motor power in kW	0.49
Type of motor	1ph/120V/60Hz/7.3A
Plug configuration	NEMA 5-15P
Net weight in lbs	231

TECHNICAL SPECIFICATIONS

Slice thickness options (in mm)	3/8" (10mm), 7/16" (11mm), 1/2" (13mm), 5/8" (16mm), 3/4" (19mm) (Extra cost), 7/8" (22mm) (Extra cost), 1" (25mm) (Extra cost), 1 1/4" (31mm) (Extra cost), Special slice thickness (Extra cost)
---------------------------------	---

MAIN STRENGTHS

**ISC®**  
Intelligent Slicing Control (JAC patent) is an automatic pressure and slicing speed control system. It adapts the cutting action according to the consistency of the bread. No manual setting needed.

**ETL Sanitation Listed and ETL Listed US & Canada**

The ETL Sanitation mark is awarded to food service equipment that has been rigorously tested against national sanitation requirements. This mark ensures you that the equipment is fit for use during food production as the manufacturer has not only passed the initial testing, but remains in compliance by completing periodic follow-up inspections. If the ETL Listed mark has a "US" to the bottom right, it has passed U.S. product safety standards. If it has a "C" to the bottom left, it has passed Canadian product safety standards. If the ETL mark displays both identifiers, it meets both standards.

**Plug configuration**  
NEMA 5-15P

**Partners**  
JAC is a member of these different associations

**Rear safety cover**  
Closing it initiates the slicing process and it opens automatically when slicing is complete. Not available with the AutoMode option.

**BPA-free paint**  
100% BPA-free satin paint (Bisphenol A): safer for you, gentler on the planet. Its low-temperature curing process significantly reduces energy consumption. Available in three solid colours: white, black or grey.
