## MAIN STRENGTHS

### Front control panel

Motorised adjustment of the upper belt height (height of loaves). Next to the front panel controls, a timer accurately records your working time.

### Variable speed drive

Allows the cutting speed to be adjusted to suit the type of bread.

### Rear loading belt

Provides uniform continuous cutting, thanks to adjustable side guides.

### Motorised outfeed belt

Fitted with adjustable guides to ensure that the bread is held together after cutting.
