# VARIA

- Versatile
- Fast: Varia pro: Adjustable speed from 120 to 240 slices / min, Varia self: 180 slices / min
- Easy: Intuitive touch screen
- Maximum safety
- Exemplary hygiene

#### **SPECIFICATIONS**

Size of entry channel (L x W x H) in inches	14,9" x 13,4" x 6,3"
Slice thickness in mm	Can be set from 5 to 25mm
Power supply	208-230v/1ph
Motor power in kW	0.75
Net weight in lbs	507
Blade type and dimensions in inches	16,5" diameter, Teflon-coated
Automatic claw	•
10 cm Front bagging stand	•
Bag holder	•
Led lights	•
Dual Pro & Self touch screen controls	•
Upper cover	•
Cleaning position	•

Automatic claw

# **MAIN STRENGTHS**

Options (Additional cost)

# Smooth and quiet for all breads

#### Teflon coated circular blade

Developed to cut through a large variety of breads; from soft to dense, with a hard crust, and even sticky breads.

# Adjustable speed up to 240 slices/ minute

In order to reach the fastest possible speed for each bread type.  $% \label{eq:control_possible}$ 

# Planetary blade drive

Fluid blade movement, avoids back-and-forth shakes. Robust solution for long-term mechanical reliability.

### Touch screen interface

Clear and simple interface, for an immediate and intuitive use

# Touchscreen control interface with consumer instructions

Clear and simple interface, for immediate and intuitive use. Only available with touch interface choice.

Automatic grip (option)

Minimized last slice width.

#### Manual grip

For all kinds of breads, including sharp ends. Allows to minimize last slice width.

#### Lighting guidance and ambiance

Lights insertion zone then exit zone.

#### Multi-positions adjustable bagging spade

Rotating spade, above cutting chamber, to optimize ergonomics and hygiene. Two standard (left and right) bagging spade positions. Or non-rotating front position (option).

#### **Upper cover**

Prevents objects placed on the machine (e.g. bags) to be pushed inadvertently behind the machine when opening the front cover. Rotates for easy cleaning.

#### Easy to access power switch

Accessible from the front of the machine, but not visible; avoids operations by a non-authorized person.

#### **Maximum safety**

Highest safety standards, for machine use by consumers and staff. The blade cannot run when the machine is not 100% locked.

#### Anti-pinch design

Users cannot inadvertently pinch their fingers in the front cover sliders.

#### Easy & fast cleaning

Internal architecture designed to channel bread crumbs to an easily accessible crumb tray. Flat surfaces (without recess around).

#### **Partners**

JAC is a member of these different associations
